## BECOMING ALARMING.

Yellow Fever Is Spreading, but Every Precaution Taken.

### STARTED IN FLORIDA

Two Persons Dead at Key West and One Case at New Orleans and Another in Indiana—Several Suspicious Cases.

Jacksonville, Sept. 2.—Key West has been cut off by the orders of J. Y. Porter, executive officer of the Florida state board of health, on account of two deaths and several cases which have been diagnosed as yellow fever. The order was issued late Thursday night by Dr. Porter on the report of the existence of the disease in Key West from Dr. Charles B. Sweeting, agent of the board at Key West and sanitary inspector of the port.

The dead are Dennis Eagan, Jr., deputy collector of customs at Key West, who was taken sick early in the week, and a boy named Cosgrove. Five cases additional have been diagnosed as yellow fever and seven are under surveillance.

State Senator Hunt has been appointed to assist Dr. Sweeting in maintaining the strictest quarantine. The officials have established a launch quarantine patrol at Miami and have appointed additional inspectors to guard against possible infection from Key West.

At the Tampa quarantine station the patrols are considered sufficient protection as all vessels coming in are compelled to stop at this station. These two points are the only ones through which communication can be had with Key West and they will be thoroughly guarded.

#### One Case at New Orleans.

New Orleans, Sept. 3.—A case of fever has been under consideration several days. Several of the visiting physicians agreed in disputing its diagnosis as yellow fever. The patient died Friday morning and the autopsy revealed the disease to be yellow fever. Another case is under investigation, but no decision has been reached. The city is in excellent sanitary condition, and the death rate for the past few weeks has been exceptionally low.

#### Caused No Excitement.

New Orleans, Sept. 2.—The report of one fatal case of yellow fever in New Orleans caused no excitement here, but there is considerable vexation in business community over the slapping on of quarantine by the surrounding towns. For a week at least it seems likely that Texas and Alabama will be closed against New Orleans freight, involving a heavy loss to current business.

Dr. Sanders of Mobile is quoted as saying there were two cases in this city. One of these was the Adolph boy who died Friday. The other is a suspicious case and now convalescent and in no danger of death.

The health authorities are confident they will be able to prevent the spread of the disease.

#### Will Withdraw the Force.

Washington, Sept. 2.—Owing to the reports of yellow fever at Key West, the navy department has decided to withdraw the force at the naval station there, leaving only one or two caretakers who are immune. The station is small and the two tugs constitute the craft there. The army garrison at Key West will go to Fort McPherson, Ga.

#### Seventeen Cases Reported.

Havana, Sept. 2.—A physician who arrived here Key West reports 17 cases of yellow fever there and two deaths. Major Davis has consulted the Marine hospital service regarding measures to prevent the importation of the disease from Key West.

#### Will Not Quarantine.

Jackson, Miss., Sept. 2.—Regarding the case of yellow fever at New Orleans, Dr. Hunter, secretary of the state board of health, makes the following statement:

"I received advices of the case from the Louisiana authorities on Aug. 28. I immediately sent inspectors to make a searching investigation. They advised against quarantining and none will be established unless the situation gets more serious. There is an agreement between the Louisiana and Mississippi boards not to quarantine on the first case and we shall not. I do not anticipate the necessity for future action."

#### Texas Will Quarantine.

Austin, Sept. 2.—State Health Officer Blunt has gone to the Louisiana border to personally look after the yellow fever situation at New Orleans and will establish a rigid quarantine and maintain it at any cost.

#### Yellow Fever in Indiana.

Chicago, Sept. 2.—A special to The Times Herald from Indianapolis, says state board of health has received a report of death of man at Vincennes, from yellow fever. The man had lately re-

turned from Cuba and though sick when he returned to New York, was permitted to come on to this state. The case is pronounced certainly yellow fever, the patient having all the symptoms, even to turning yellow and having the black vomit.

#### Cooperage Plant.

Sherman, Tex., Sept. 2.—A large cooperage plant is to be erected at once on land leased from the Missouri, Kansas and Texas railway.

### MAY GO TO ARGENTINE.

Bohemians Offered Inducements to Go to the South American Republic.

Chicago, Sept. 2.—The Bohemians living in the United States are planning to emigrate to South America. Jose Faber, of Buenos Ayres, is in the city on his way to confer with Dr. Martin Garcia Meron, minister of the Argentine republic at Washington, relative to the inducements offered to Bohemians to leave this country and take up their abode in the southern parts of the Argentine Republic.

Julian Freers, the Argentine Republic minister of agriculture, has provided Mr. Faber with credentials to Dr. Meron.

Mr. Faber has chosen three Bohemian newspaper men and a priest, who will explore the promised land at the expense of the Argentine Republic, with a view of inducing their countrymen to leave the United States as better opportunities are offered.

The members of this commission are John Rosick, publisher of Porok Zapadu, in Omaha, Neb.; Py Rovnianek, publisher of the American Slavonic Gazette, in Pittsburgh, Pa.; August Gerenge, publisher of the Chicago Svorost and the Rev. Bonsek of Tyndall, S. D. If the reports of this committee are in favor of immigration, the Argentine government, according to the statement of Mr. Faber, will offer each settler 500 acres of land in the state of Chubut for a small consideration, with the understanding, however, that this tract shall be converted into farming land.

### HORRIBLE STORY.

Shipwrecked Seamen Kill a Companion to Sustain Life.

Charleston, Sept. 2.—The British steamer Woodruff has arrived here with Maurice Anderson and Goodmund Thomassen, survivors of the Norwegian bark, Drot, wrecked off the Florida coast. Anderson is a raving maniac. Thomassen tells a terrible story. The captain and seven seamen were swept overboard and lost in a hurricane. The mate and seven others put to sea on a raft. The mate suicided. Of the six men on the raft all but three jumped overboard. The three remaining had nothing to eat, drew lots as to who would be killed. Fate fell to the lot of a German seaman, who was killed and his blood sucked. Anderson then lost his reason.

#### After Twenty-five Years.

Elmira, N. Y., Sept. 2.—Frank J. Leach, who was reported dead, has returned to Elmira after an absence of 25 years to claim property valued at several thousand dollars left by his mother and now in possession of his stepfather, Joseph Cilley. Leach has served 12 years in a California prison for a crime of which he was afterward proved innocent. His mother died while he was in prison, and he claims that it was known by his relatives that he was alive when the property was turned over to his stepfather. He has secured an attorney and will fight for his inheritance.

#### Wife Handed Him the Rifle.

Coleman, Mich., Sept. 2.—In a quarrel here between John Metcher and William Graves over a strip of land, Metcher shot Graves in the knee. Graves' wife started to her husband's rescue carrying a rifle. Two men, said to be relatives of Metcher, attempted to take the gun from her. Graves seized the gun and shot and killed one of the unknown men and mortally wounded Metcher. Graves is in custody.

#### Farmer Shot by a Sheriff.

Eldora, Io., Sept. 2.—While endeavoring to escape from pursuing officers, Fred Hass, a widely known farmer was shot in the head by Sheriff Mitterer. Hass was captured and is held on a charge of forgery. Many notes for sums aggregating hundreds of dollars have come to light recently, bearing the forged signatures of farmers of this section. It is claimed that Hass forged the paper.

#### Goes Into Business.

Pine Bluff, Ark., Sept. 2.—Hon. Clifton Rhodes Breckinridge, predecessor of the present ambassador to Russia entered business at Pine Bluff. He is identified with the round bale press business. John R. Fordyce, son of Colonel Sam W. Fordyce of St. Louis, is the patentee of the press, and also Mr. Breckinridge's business associate.

#### Emancipate the Negroes.

Atlanta, Sept. 2.—The Journal publishes a sensational story from its special correspondent, who has recently been in North Carolina, saying a campaign has commenced there by the white people,

### Women Inventors.

Rev. Ada C. Bowles gave an interesting talk lately on "Women as Inventors," the result of twelve years' research, the substance of which is reprinted in The Woman's Journal. She said that in China silk-weaving was invented by the wife of the fourth emperor, for which divine honors are still paid to her. Japanese bronze work was the invention of a woman. In India the weaving of Cashmere shawls was invented in the seclusion of the harem by a woman, who also gave so wise counsel to the prince, her husband, that he changed her name from Nourmahal (Light of the Harem) to Noorjehan (Light of the World), and had coins struck bearing this title. Attar of roses was invented either by the same woman or by her mother, the authorities differing on this point.

The secret of Venetian point lace which had been lost in the thirteenth century, was rediscovered in this by an Italian work-woman. The beautiful gauze called "woven wind" is a woman's invention. When Harriet Hosmer took her Yankee brains to Rome, she found out the way to make marble from limestone, which the Italian government had long been seeking.

In this country women's progress in invention has kept pace with

their progress in education. Mary Kees was the first American woman to take out a patent, in 1808. It was for weaving straw with silk or thread. At this time girls received hardly any education. During the next quarter of a century only fifteen patents were taken out by women. These included a globe for teaching geography, a baby-jumper, a fountain pen, a deep-sea telescope, and the first cookstove.

By 1834 women had a few more educational privileges, but not many, and in the next twenty-five years women took out patents for thirty-five inventions. By 1859 high schools were opened to women, and the war was coming. The high schools taught them to use their minds, and the war forced them out into many new avenues of work. During the quarter of a century from 1859 to 1884 the number of inventions patented by women rose to 1,503. Women who took their husbands' places on the farms invented many improved agricultural implements especially at the West; women went into the shoe-shops and at once began to take out patents on machinery; women nursed in the hospitals, and invented improved bandages, canteens, camp-beds, etc. Colleges, Sloyd, and manual training are now developing the latent inventiveness of women, and during the twelve years from 1884 to 1895, the latest date to which the Patent Office reports have been published, women have taken out 3,905 patents.

Some large and important inventions are due to women. Mrs. Harriet Strong, who began by inventing a corset, afterward moved with her husband to California; and since his death she has taken

out patents for reservoirs and dams. She is now an old woman, but the other day I saw that she had just patented a device for the storage of water. Mrs. Ada Van Pelt, while her husband was postmaster at Oakland, Cal., invented a permutation look with three thousand combinations; also a letter-box for the outside of houses, that throws up a signal when there is a letter inside for the postman to collect. This is now in daily use. Satchel buttoned paper bags were invented by a woman, who was offered \$20,000 for the patent before she left Washington. An invention which revolutionized the making of screws originated with a little girl. A woman invented the Burden process of making-shoes, which turns out a perfect horse-shoe in an incredibly short time. This invention has saved the country \$2,500,000 in fourteen years. Yet there are still many persons who believe that women cannot invent.—Scientific American.

### Private School.

In the lower story of the Masonic Lodge building, better known as the old Baptist church, we will open a school on the 4th of September, 1899. Instruction given in primary, preparatory and high school branches.

We earnestly solicit a liberal share of public patronage, and promise faithful performance of our duty in the interest of our pupils. Mrs. Edna Minkert, Miss Mary Minkert, Teacher

### OUT IN THE SUBURBS.

New York Central Road to Sell Some of Its Valuable Property.

New York, Sept. 2.—One of the most extensive of the Astor real estate holdings is the tract of 135 acres along the Harlem river west of Cedar Park ridge. The New York Central railroad has resumed negotiations for the purchase of this property and it is said the deal will probably be made soon. Three years ago William Waldorf Astor stood out for \$2,145,000 for his interest. Now, it is understood the railroad is willing to pay a slight advance on this figure.

It is said that the New York Central is anxious to establish a magnificent terminal there. Those close to William K. Vanderbilt say he is ready at last to bring about a series of tremendous deals. The recent sale of the tract of land in the heart of Syracuse on which the Central has its passenger and freight stations is said to be the first move in a vast real estate operation.

The Central will build new passenger and freight stations in the suburbs there. The new station building in Albany is part of the same plan. It will be part of the Central's policy to sell its valuable real estate in the center of New York, Poughkeepsie, Schenectady, Albany, Rochester and Buffalo and build new stations in the outskirts, while the millions coming from realty liquidation will go direct into the treasury.

### THE HAGUE CONFERENCE.

The Japanese Delegates Believe There Has Been Good Effect.

New York, Sept. 2.—Among the passengers on board the Campania were Captain T. Sakamoto and Mr. Tamaki, the Japanese delegates to the peace conference at The Hague. When asked what the effect of the conference was, Captain Sakamoto said:

"You know what the result was. The fact is that while the conference had no real, tangible results, it will have the effect of giving a preference for arbitration. I mean that powers will be more apt to be slower in going to war."

He said Japan did not figure conspicuously in the convention, though its representatives made some suggestions. He thought the proposition of the United States relating to trading vessels in time of war, being exempt from seizure, was good. Captain Sakamoto did not care to discuss the Philippine question. He thought that there was no foundation in the rumor that Japan and China had come to an agreement.

### Two Pioneer Ladies Dead.

Rusk, Tex., Sept. 2.—Two very old ladies, pioneers of this section, died Thursday night. Mrs. Jefferson Shook and Mrs. Thomas Singletary. Mrs. Shook was the widow of Rev. Jefferson Shook, who was a pioneer Methodist minister. Mrs. Thomas Singletary is the mother of Captain Henry Singletary, and ex-Confederate veteran and ex-sheriff of the county.

### Willis Tobacco.

Willis, Tex., Sept. 2.—Louis Dolphin, a tobacco buyer, has been in Willis during the past week. He has shipped out via Galveston to New York five carloads of the 1888 crop purchased by his firm alone. The bulk of the Willis tobacco crop is shipped to several New York firms, but a large per cent of it goes to Massachusetts, California, Illinois, Florida and Georgia.

### May Meet Dewey.

Austin, Sept. 2.—There is still a prospect of Texas being represented by her military organizations at the Dewey reception in New York city on Sept. 30. Adjutant General Scurry expects the new uniforms to reach here about Sept. 10, and they will be immediately shipped to the several military companies comprising the state volunteer guard.

### Cheek Bone Dislocated.

Gainesville, Tex., Sept. 2.—Joe Poindexter, who resides in the northeast part of the city was severely kicked by a fractious mule. The blow landed with full force on Poindexter's left cheek, making an ugly wound and dislocating the cheek bone.

### Cocaine Fiends Must Go.

Sherman, Tex., Sept. 2.—The police have opened a crusade against cocaine fiends and alley loafers, men and women. A general notification was given that to be caught again means "time" on the city works. The officers were taken at their word.

### Summary Dismissal.

Washington, Sept. 2.—The president has directed the summary dismissal from the military academy of Cadet P. F. Smith of Nebraska, for hazing. It is announced that similar punishment will be followed in every case of this kind.

### Machinists on a Strike.

Philadelphia, Sept. 2.—Expert machinists and their helpers to a number of 160 employed at Cramp's shipyards went on a strike. The men demand a 9-hour day and the reinstatement of discharged employees.

### Typhoid Fever Fatal.

New Braunfels, Tex., Sept. 2.—George Hesser, a farmer living four miles south of here, lost three children, all girls, aged 8, 16 and 20 respectively, from typhoid fever. All died within a week.

### Died of Heat.

New Braunfels, Tex., Sept. 2.—H. E. Lenzen, a well known young man here, fell a victim to the intense heat. He was sunstruck at 10 a.m. while working at Landa's mill and died at 12 noon.

### Thigh Broken.

Colorado, Tex., Sept. 2.—Hunter Looney, the 14-year-old son of Judge R. H. Looney, had his thigh broken while running cattle, his horse falling and rolling on him.

The current term of the district court will be one of the busiest held here for a long time. On the docket will be five murder cases, as follows, all the parties being colored: Anderson Johnson, charged with murder, will have a new hearing; Neeley Shannon, charged with the murder of Becky Vaughn; Charlie Robertson, charged with the murder of Griffin Jackson; Andrew Dozier charged with the murder of Annie Brigrance; Allen Clark, charged with the murder of Henry Nettles.

Capt. Robert Hudspeth, who was a visitor to the city yesterday, showed to the reporter two ears of popcorn, grown on his place in this county, with a large number of grains on each ear which were "popped" in the shuck on the stalk by the heat of the sun before the corn was pulled. Speaking of hot, dry weather, we have certainly been getting our share of it, as indicated by the above unusual occurrence.

The school board held a meeting Friday afternoon. The resignation of Miss West as teacher was accepted, she desiring to prosecute her studies at the State university. The election of another teacher was left to the discretion of the superintendent. Four years teacher's certificates were granted to Misses Nall and Stoddard.

The bridge across Wickson creek, on the Chaney bridge road, leading to north Grimes county, has been moved by Mr. J. H. Wallace, who has charge of the county convict force. Mr. Wallace will begin work on the Bundick bridge Monday, and after that we understand the force will go to the long bridge or trustee.

Thirty-four people boarded the Galveston excursion train here yesterday afternoon. The train was composed of eleven full coaches, starting at Denison and was an hour late on reaching this point, where it was still further delayed by the breaking of a drawhead.

We now have a wagon and are prepared to deliver cotton seed hulls to any part of the city. Ring up No. 47 or send in your orders to the Bryan Cotton Seed Oil Mill, E. J. Fountain, Manager. 240

J. M. Ratliff, who resides four miles east of Bryan, brought a 14-foot stalk of sugar cane to town yesterday and placed it on exhibition at Zuber & McDougald's.

A negro named Henry Pierce was kicked by a horse here yesterday afternoon and had his arm broken or crushed near the shoulder.

Marriage licenses: Joseph Zemanek to Patricia Marek, Hugo Endler to Helena Lenz, Willie Wright to Janie Motley, E. Williams to Cora Lee.

Wooten & Harder have a car of good North Texas corn on the track which they are selling at 35 cents per bushel from the car.

Mrs. S. J. Howell and children returned to Dallas yesterday after visiting Dr. J. W. Howell and family.

W. J. Wallace has purchased W. P. Trant's meat market and has an ad in The Eagle this morning.

Mr. and Mrs. George Echols were visitors to the city yesterday from Providence.

A Haidusek of La Grange, was in the city yesterday and attends the C. S. P. S. barbecue at Smetana.

All kinds of fine millinery very cheap at Mrs. C. M. Proctors. 183tf

FOR SALE—My saddle pony. Apply to Jno. B. Hines. 241

Mrs. D. A. Lawrence returned from Dallas yesterday.

Judge W. H. Nall went to Millican last night.

Lang the machinist, at Carr's Hardware store. dtf.

### Card of Thanks.

I desire to thank the customers of the Trant market for the business we have enjoyed, and hope our old customers and many new ones will continue with the market under its new proprietor, who will keep it up to the very highest standard. Very respectfully,  
Geo. W. Medland.

### Exchange Hotel Arrivals.

H. F. Scheer, St. Louis; L. S. Murphy, Calvert; Dave H. Shapira, Madisonville; J. C. Nichols, Houston; M. D. Townsend, Whittaker; J. M. Cotton, Houston; F. E. Way, Dallas; P. B. Hurst, Houston; W. C. Gilmore, City; A. Haidusek, Lagrange; S. Orr Neal, New York; A. P. Moore, Waco.

T. R. Miller will preach at the Christian church tonight. Text, Luke 18:14.

### Applauded His Prayer in Advance.

At a recent sectarian convention in New York the chairman of the evening arose and said: "The Rev. Dr. Blank will now—" but at the mention of the doctor's name a tumult of applause drowned the speaker's voice. The reverend gentleman stood gravely waiting until the noise subsided. "Now let us pray," he said.

### She Knew Her Business.

"And so she poisoned her husband! Ah, how could she do it! She is so sweet-looking and so beautiful."

"That's just the reason. She knew she would have a cinch with the jury."

### A New Fuel.

In appearance, astatki, a product of the oil wells of Baku, is a dark, viscous fluid, not more inflammable than vegetable oil, and less so than coal. As a steam producer it has no rival, and the demand for this purpose is constantly on the increase. Nothing else is burned on railways in Central Asia, the Caucasus and Southern Russia, on the Black sea, Caspian and river steamers and in the innumerable industrial works which are springing into existence on the Azov littoral.

On the railways which employ this substitute for coal locomotive tenders are not piled high with black diamonds, but carry a sheet iron astatki tank, which is filled by pumping or the force of gravity. Numerous are the systems of feeding furnaces with astatki; and indeed every engineer has his own pet apparatus. The principle of all is that of the Root's blower. A current of steam or preferably air, carrying with it the fuel in minute subdivisions, is forced at high pressure through a nozzle, called a pulverizer, into the tubular interior of the boiler to be heated.

The result is an intensely white, roaring flame, and in pulverizers of the latest type the value of astatki as compared with coal as a steam raiser is as 2 1-2 to 1. The former sells at Baku at \$2.50 per ton, and when the pipe line connecting that place with Batoum is complete, astatki will be delivered at the steamer's side at something like \$4. At the latter price coal will be clearly unable to compete with its youthful rival. Nor do the advantages of astatki end with its cheapness. Engines burning it require no army of stokers, for all that is necessary in the largest is a man to regulate the supply by taps. There is no smoke, litter or dust. Many a passenger by ocean steamer will bless the day when astatki shall supplant coal and the stokers who are roasted alive in tropical waters will have greater reason to be thankful for the revolution.

## WAS ALMOST MUTINY.

Soldiers on Transport Senator Kick On "Embalmed Beef."

## WON THEIR POINT.

Officers Forced to Throw Overboard a Quantity of Such Designated Meat--Riot Among the Men at Honolulu.

Honolulu, Aug. 26, via San Francisco, Sept. 2.—There was an "embalmed beef" mutiny on board the transport Senator which arrived here Aug. 22. The second day out from San Francisco the soldiers, 66 recruits for various regiments in the Philippines, discovered that a considerable portion of the beef served for their consumption was the tinned beef which had acquired the name of "embalmed beef." Trouble arose immediately. The soldiers refused to eat it or allow it to be served. They insisted that it be thrown overboard and finally this was done. Refrigerated meat was used for the rest of the voyage here and at this point a large supply of fresh meat was put on board.

The second day the Senator was in this port a riot occurred. A number of the soldiers from the transport became intoxicated and a fight was started among a hundred of them. The Senator sailed a few hours later with many of her men in irons and in the guardhouse.

### Are Willing to Enlist.

Knoxville, Sept. 2.—Wilder Guards, a crack military organization of this city, every member of which was a volunteer in the Spanish-American war, has volunteered to go to the Philippines, or wherever the president may see fit to send them. President McKinley and Congressmen Brownlow and Gibson of this state, were advised by wire of the determination of the young men. The congressmen were asked to use their influence to have the proposition of the company accepted, and that they may enter the national volunteer service under its own officers. Its captain is H. E. Goetz, who held a similar rank in the Third Tennessee.

### Train Runs Over Two Negroes.

Mount Vernon, Ill., Sept. 2.—Will Harris and William Gill, colored, both of Clarksville, Tenn., were run over by a Louisville and Nashville passenger train a few miles southeast of this city, one being instantly killed, the other mortally wounded. They were walking on the track and had set down to rest, when they fell asleep. A third negro, Dave Tyndal, was awakened just in time to save himself by jumping from the track.

### Marriage Disclosed by a Suit.

South Bend, Ind., Sept. 2.—Mrs. Jennie Cassell has entered suit against the estate of the late Nathan Stanley, which is valued at \$60,000. Mrs. Cassell claims she is entitled to the widow's share of the estate, as she was married to the deceased in 1895. The marriage was kept secret because of Stanley's promise to his first wife not to marry after her death, which occurred 15 years ago. The birth of a child made the disclosure necessary.

### Strychnine in the Pie.

Columbia, S. C., Sept. 2.—William Strait, said to be a relative of ex-Congressman T. J. Strait, was arrested in Yorkville, charged with attempting to poison his mother-in-law, Mrs. Mollie Kidd, and her family, by putting strychnine in corn pie. Mr. Kidd shot himself a year ago, and Strait has been circulating the opinion that his mother-in-law was about to take her life. Mrs. Kidd is wealthy and it is said her property was the cause of the trouble.

### Opposed by Public Opinion.

New York, Sept. 2.—A dispatch to The Herald from Buenos Ayres says public opinion is decidedly adverse to the convention scheme proposed by the government. Former Ministers of Finance, Pacheco, Plaza, Terry and Escalante unanimously condemn the project. They say that it would have disastrous consequences for the Argentine. The scheme will probably be adopted by the senate and rejected by the chamber.

### Bar Iron and Nails Up.

Chicago, Sept. 2.—Bar iron and steel have advanced \$5 per ton in a week. Wire and wire nails will advance \$3 per ton. The month of August has been the best on record, not only with the iron and steel mills, but with jobbers in all wires. Sales so far for this year are fully 25 to 35 per cent ahead last of last year.

### Killed by Strikers.

Wilkesbarre, Pa., Sept. 2.—While five men were entering the mine at Steven's colliery near Pittston, for the purpose of making repairs, they were fired upon by a gang of strikers. One man was killed and two others injured. The mine has been idle for some time owing to the strike.

### Another Political Killing.

New Orleans, Sept. 2.—The municipal campaign which has already been prolific in bloodshed is responsible for another murder. Stanley Le Roy, a young man was shot and almost instantly killed at a clubhouse of the De Rance Cruso faction by Emile Luis, another young man. Opinion is much divided.

### Mayor Resigns.

Ennis, Tex., Sept. 2.—Mayor W. M. Tidwell has filed his resignation. Mr. Tidwell left here for Plano, where he will take a position as a teacher in the public school.

## TRIAL OF DREYFUS.

Some Witnesses Testify Strongly in Behalf of the Captain.

Rennes, Sept. 2.—There was a large attendance and a big number of generals at the Lycee this morning at the opening of the courtmartial trial of Captain Alfred Dreyfus. Interest centered on the testimony of Major Hartmann of the artillery, which was interrupted Friday by the adjournment of court. The major, who has done great service for the defense, resumed important depositions regarding artillery matters and bringing out points and phraseology of the bordereau, indicating the writer could not have been Dreyfus. The witness wished to enter into the question of the Robin shell, but on General Deloye objecting to a statement on the subject in open court, Major Hartmann asked to be allowed to give it behind closed doors and it was so ordered.

In response to questions from Labori and M. Demange, counsel for the defense, Major Hartmann said any officer attending Chalons' camp could have obtained sufficient information to write notes on covering troops and Madagascar matters. Interesting confrontation between General Deloye and Major Hartmann followed, the general declaring that he did not believe the major was keeping strictly to the truth. Deloye then proceeded to point to what he said was an inaccuracy in Major Hartmann's testimony.

M. Labori asked General Deloye if he knew whether the documents, which could have been betrayed by a traitor, especially by the writer of the bordereau, were important, whereupon the general excitedly cried: "Don't ask me! Don't ask me!" These exclamations created a sensation in court which doubled when General Deloye added that there was sufficient in the bordereau to establish the traitor if he knew the importance of the document he was giving up. The witness added: "When I read the bordereau I was dismayed."

Major Hartmann's reply to General Deloye reiterated that the author of the bordereau was ignorant of artillery matters.

General Mercier here mounted the stage and remarked that the writer of the bordereau might very well employ the term "hydraulic brake," because that term was used by the Germans for such brakes. This ended the deposition of Major Hartmann, who was a very valuable witness for Dreyfus, although the effect of his testimony was somewhat weakened by General Deloye's theatrical statement in reply to M. Labori.

There were several other witnesses, all of whom declared that Dreyfus could not have written the bordereau.

## DEWEY'S CHINESE.

He Begs They Be Admitted to the United States as Citizens.

New York, Sept. 2.—The Tribune says George H. Holden, who has been in the Philippines attending to the prize and claims of the sailors who took part in the battles of the late war, is in the city. In an interview he said:

"I received the utmost courtesy from Admiral Dewey. When I was leaving and called to pay my respects to the admiral he said among other things:

"Mr. Holden, when you get back I wish you would see our congressman and get him to pass a law which will allow the Chinese boys whom I have had with me to come over to America. If they were good enough to fight with us and to wear the medals of our government, they are good enough to become citizens."

### The Standard Wins.

Albuquerque, N. M., Sept. 2.—The New Mexico territorial supreme court has decided that the law passed by the last legislature requiring corporations to take out license to do business in the territory was unconstitutional, as far as it related to the Continental Oil company, for the reason that it conflicted with the interstate commerce laws. B. G. Wilson, the manager for the company in New Mexico, who was arrested in this city for not complying with the law, was released on habeas corpus proceedings.

### Shooting Justifiable.

Maryville, Mo., Sept. 2.—Coroner E. L. Crawson came down from Pickering and held an inquest over the body of Rev. William Johnson, the colored evangelist, who was shot and killed by Policeman John Wallace, while resisting arrest. The testimony of a number of eye witnesses, among them Sam Gunn, a colored man, was taken, and the jury, after being out a few minutes, returned a verdict to the effect that the man had come to his death by a gunshot wound from a pistol in the hands of Wallace and that the shooting was justifiable.

### Texas University Election.

Austin, Sept. 2.—The board of regents of the University of Texas has elected Prof. Wheeler, formerly of the University of Chicago, to the chair of zoology; Prof. Schurter, formerly of the Cornell university, to the chair of oratory, and Prof. Villevaseo, formerly of the public schools of Galveston, to the chair of French. The board adjourned without taking any action regarding the election of a president for the university. The board will meet again in about a month.

### Disemboweled in Bed.

Brazil, Ind., Sept. 2.—William Wells, son of Richard Wells, residing south of here, was found dead in bed with his left eye torn from its socket and his intestines cut out. Young Wells has been ill and it is thought that while in a fit of insanity he tore out his eye and inflicted the other wound.

## PACKING PLANT BURNED.

That of Jacob Dold Suffers From Fire Which Destroys Several Sections.

Kansas City, Sept. 2.—Fire broke out at 1 o'clock this morning in the big plant of Jacob Dold Packing company, which covers several acres of ground on the west river bottom. The fire started in the fertilizing department.

At 2:30 o'clock the fire was under control. The fertilizing department, the engine room, ice plant, sausage department and lard room were destroyed with much costly machinery.

The loss is estimated at \$350,000, covered by insurance.

The company will be compelled to suspend operations until the destroyed buildings can be rebuilt.

### Receipts and Expenditures.

Washington, Sept. 2.—The comparative statement of the government receipts and expenditures shows that during the month of August, 1899, the receipts from all sources amounted to \$49,978,178. An increase over August, 1898, of about \$6,150,000.

The disbursements of last month amounted to \$45,522,811, as against \$56,260,717 for last August. This leaves a surplus for the month of \$4,455,862.

Since July 1, 1899, the receipts have aggregated \$98,392,431, as compared with \$85,629,816, during the same period last year.

The expenditures during the last two months amount to \$102,083,402 against \$130,524,193 for the corresponding period last year.

### The Public Debt.

Washington, Sept. 2.—The monthly statement of the public debt shows that at the close of business Aug. 31, 1899, the debt, less cash in the treasury, amounted to \$1,537,306,550, a decrease as compared with last month of \$4,281,119. This decrease is accounted for by a corresponding increase in the cash on hand.

### A Negro's Head Severed.

Houston, Tex., Sept. 2.—Joe Munson, colored, was cut to death here. A razor was drawn across his throat, and but for the spinal column his head would have been cut off. The keen blade went to the bone in the back part of the neck. It was done in a negro saloon and gamblinghouse, and soon after it was done a lively chase took place that resulted in the arrest of Starkey Collins, colored. Munson died in three or four minutes.

### Reagan Will Not Resign.

Austin, Sept. 2.—In regard to the dispatch from Washington saying Judge John H. Reagan would in the near future resign from the commission and ask that Hon. M. M. Crane be appointed in his place, Judge Reagan when shown it declared that it was without foundation and was news to him. When asked the direct question: "Do you contemplate resigning?" Judge Reagan replied, "I do not."

### Gored by a Cow.

Cleburne, Tex., Sept. 2.—Mrs. Tom Hambrick, who lives in the eastern edge of town, was horribly gored by a cow. The animal's horn entered in the lower part of the bowels and tore them open for about 11 inches. The intestines, it is thought by the physicians, are not injured. About 30 stitches were taken to close up the wound. The lady is in a critical condition, but will possibly recover.

### Scarlet Fever Case.

LaGrange, Tex., Sept. 2.—At a called meeting of the city council one case of scarlet fever was reported. The case is isolated and steps are being taken to prevent the spread of the disease. The council served notices on the physicians that the ordinance punishing doctors for failure to report contagious or infectious diseases will be strictly enforced.

### A Boy Drowned.

Fort Worth, Tex., Sept. 2.—Jesse Paxton, aged 7 years, was drowned here while bathing in a tank in Captain Daggett's pasture, three miles from town. He had been warned by a younger boy, who was standing on the bank, not to go in, but did not heed the warning.

### Five Convicted.

Darien, Ga., Sept. 2.—The jury in the cases against Ben Dunham, James Wiley, Marshal Dorsey, Louisa Underwood and Maria Curry, charged with rioting, has returned a verdict of guilty. The jury was out only about 14 minutes. None of the rioters will be sentenced until the end of the session.

### Brakeman Hurt.

Tyler, Tex., Sept. 2.—Arthur Stewart, a brakeman on the International and Great Northern local, while making a siding switch, fell from the cars and received severe bruises and a deep cut on the head. The attending physician does not think the wound dangerous.

### Gin and Cotton Burned.

Gonzales, Tex., Sept. 2.—The cotton gin belonging to Mr. Beeson, living near Smiley, was destroyed by fire and four or five bales of cotton burned with it. It was a new plant, this being the first season it had run.

### Wrecking Miner Killed.

Colorado Springs, Sept. 2.—Charles A. Kuhn, ex-mayor of Anacosta and one of the best known Cripple Creek mining men, fell 100 feet down the Orpha May No. 3 shaft to instant death. He had amassed a fortune in mining ventures.

### Boiler Exploded.

Manitowish, Mich., Sept. 2.—The boiler in Chapman & Sargent's sawfactory at Copenaw, 30 miles north of here, exploded, killing three men and fatally injuring four others.

### Six Hundred Lives Lost.

Yokohama, Sept. 2.—Six hundred lives have been lost by the flooding of a copper mine at Besshi, island of Shikoku.

# For Hot Weather
